## PROFILE

Web Developer specializing in modern JavaScript technologies with experience in building responsive and dynamic web applications. Strong understanding of MERN stack, API integration, and clean UI design. Always eager to improve skills and adopt best development practices.

## WORK EXPERIENCE

### MERN Stack Web Developer (Projects)

Personal Portfolio & Web Applications | 2024 - Present

- Designed and developed a personal developer portfolio to showcase projects, skills, and contact information using React.js and modern UI practices.  
Link: <https://jassirhashmi.vercel.app>
- Built a full-stack E-commerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js)  
Link: <https://forever327.vercel.app>
- Created a responsive business website clone with modern UI and optimized performance  
Link: <https://isk-clone.vercel.app>
- Used JWT-based authentication, protected routes, and role-based access control
- Deployed frontend applications on Vercel and managed production-ready builds
- Followed clean code principles, reusable components, and React Hooks best practices
